

QUALITY POLICY

Aditya Dispomed Products Private Limited is committed to protecting the health and safety of patients and users by designing, manufacturing, and supplying safe, effective, and compliant medical devices.

As a regulated medical device organization operating in global markets, we are dedicated to:

1. Complying with all applicable statutory, regulatory, and customer requirements in the markets where our devices are placed.
2. Maintaining and continually improving the effectiveness of our Quality Management System in accordance with applicable international standards and regulatory frameworks.
3. Applying risk-based thinking throughout the entire product lifecycle — from design and development through manufacturing, distribution, and post-market activities.
4. Monitoring product performance through post-market surveillance and responding promptly, transparently, and responsibly to safety-related information, including implementation of corrective actions where necessary.
5. Ensuring that responsibilities for regulatory compliance are clearly defined, supported, and fulfilled within the organization.
6. Continually improving product quality, operational efficiency, and customer satisfaction.

Through these commitments, we aim to strengthen our position as a trusted global medical device manufacturer.

Rajiv Kehr
Managing Director
